KNOCKOUT

Heavy duty one-shot powder laundry detergent
A.Q.I.S. approved for use in export food establishments

General description

Knockout is a free-flowing white powder containing biodegradable surfactants, optical brighteners, soil suspending agents and specially selected builders. It is recommended for the specialized processing of cottons, synthetics and polyester/cotton fabrics. It is equally effective in either hard or soft water conditions and will give excellent results on heavy industrial soils.

Recommended uses

Knockout is recommended for the specialised processing of cottons, synthetics and polyester/cotton fabrics. It is equally effective in either hard or soft water conditions and will give excellent results on heavy industrial soils.

Special advantages

Knockout is equally effective in either hard or soft water conditions and will give excellent results on heavy industrial soils.

Directions for use

Knockout is usually added to the main wash cycle of the wash programme. Usage rates will vary dependent on the degree of soilage, loading factors, dip levels, type of machine and wash temperatures. Excellent results in either soft or hard water conditions will normally be obtained by following the recommendations listed below.

	CAPACITY (DRY WEIGHT OF CLOTH)		
	10 kg	15 kg	20 kg
Light soiling	75 g	90 g	100 g
Medium soiling	95 g	120 g	150 g
Heavy soiling	115 g	150 g	200 g

Normal wash: The machine should be loaded and operating at the desired water level before adding the detergent.

Hand care: Hands should be thoroughly rinsed and dried after contact with Knockout.

Safety directions

Refer to the Material Safety Data Sheet for Safety Directions and First Aid Instructions.
