

MATERIAL SAFETY DATA SHEET

STATEMENT OF HAZARDOUS NATURE

Non hazardous according to criteria of Worksafe Vanuatu.

COMPANY DETAILS

Pacific Suppliers Limited
 Lini Highway
 PO Box 541
 Port Vila, VANUATU
 Telephone Number: (678) 25082
 Fax Number: (678) 25256

IDENTIFICATION

Product Name: **SUPASOFT**
 Other Names:
 Manufacturer's Product Code: Supa
 UN Number: None Allocated
 Dangerous Goods Class and Subsidiary Risk: None Allocated
 Hazchem Code: None Allocated
 Poisons Schedule: None Allocated
 Use: Concentrated Fabric Softener

Physical Description/Properties

Appearance: Off-white opaque liquid
 Melting Point: Below 0°C
 Vapour Pressure: Not Available
 Specific Gravity: 1.0
 Flashpoint: (0°C)
 Flammability Limits: Not Flammable
 Solubility in Water: Miscible in all proportions

Other Properties

Corrosiveness: Corrosive to most metals
 pH (undiluted): 5

Ingredients:

All hazardous substances as defined by the NOHSC Code 1008 are listed by chemical name and CAS No. Other ingredients which are determined to be non-hazardous are listed by generic name or as "other ingredients determined not to be hazardous".

Chemical name:	CAS No:	Proportion:
Quaternary ammonium compound		Less than 10%
Methylated spirits		Less than 10%
Perfume		Less than 10%
Preservative		Less than 10%
Water		To 100%

HEALTH HAZARD INFORMATION

Acute:

Swallowed: Nauseating.

Eye: Strongly irritating.

Skin: Irritating.

Inhaled: Not applicable

Chronic

Prolonged contact may cause skin irritation.

FIRST AID

Swallowed: Contact a Doctor or Poisons Information Centre. Do NOT induce vomiting. Give water or milk then raw egg. Repeat if vomiting occurs. If the patient is not fully conscious do not give anything by mouth.

Eye: In case of contact with eyes or on the face, remove contact lenses if worn. Hold eyes open and flood with water for at least 15 minutes. Get medical attention.

Skin: Remove contaminated clothing and wash skin thoroughly with water.

Inhaled: Not applicable.

FIRST AID FACILITIES: Fresh water, milk, raw egg.

ADVICE TO DOCTOR: If swallowed, treat for quaternary ammonium compound.

PRECAUTIONS FOR USE

Exposure Standards: Not applicable.

Engineering Controls: When dispensed by the Pacific Suppliers Limited metering equipment, normal use does not produce a mist and there is no special ventilation requirement.

Personal Protection: Avoid contact with the skin and eyes. Keep out of the mouth.

Flammability: Not flammable or combustible.

SAFE HANDLING INFORMATION

Storage and Transport: No special precautions.

Spills and Disposal: May be flushed to sewer with water but prevent, by any means available, larger spillages from entering storm-water drains or water courses. To contain spillage, absorb on vermiculite or similar absorbing material and collect in drums. Residues may be flushed away with water.

Fire/Explosion Hazard: None.

OTHER INFORMATION

This MSDS is valid for five years from date of issue but may be withdrawn and revised at any time prior to that date. Readers of the document should contact Pacific Suppliers to ensure they are using the latest issue.

CONTACT POINT: Pacific Suppliers (678) 25082

Technical appraisal

SUPASOFT

Concentrated liquid fabric softener

Supasoft is a creamy, white liquid, containing a very pleasant fresh citrus fragrance. It has been professionally formulated to incorporate a selected blend of mutually compatible cationic fabric softeners and optical brightening agents.

General description

Supasoft is recommended for use in all industrial, institutional and commercial on-premise laundry operations associated with restaurants, hotels, motels, hospitals and nursing homes.

Special advantages

Supasoft, being a liquid, is ideally suited for controlled feeding through automatic dispensing systems – there is no waste or mess as experienced with powdered laundry products. The correct amount of detergent is dispensed into the wash-wheel every time. Accurate, economical usage is therefore assured.

Supasoft leaves linen and other fabrics soft and fresh. When used as directed, it will not build up on fabric surfaces or reduce water absorbency.

Supasoft is safe to use on all cottons, linens and synthetic fabrics.

Supasoft speeds up drying time. It also reduces static electricity build-up on synthetic fibres thus eliminating the tendency for such garments to cling to the skin.

Directions for use

Supasoft should be added to the final rinse of the wash program with a 30-40°C water temperature and a low water level. The rinse should be 4-5 minutes in duration.

Usage rates will vary dependent on the loading factors, dip levels, type of machine and wash temperatures.

Concentration: 30 ml – 70 ml per 22 kg dry weight of linen.

Available in the following quantities

1 litre, 5 litre, 10 litre, 15 litre, 20 litre, 25 litre

Safety directions

Refer to the Material Safety Data Sheet for Safety Directions and First Aid Instructions.
